## MAKS VOICE

2023-24  
Vol.6

### CHAIRMAN'S MESSAGE

It gives me immense pleasure and a sense of satisfaction to acknowledge the part MAKS School plays in strengthening our tomorrow. The children of today are the torchbearers of our future. Education is the tool that provides them with the light and leads them on the right path. Here, at MAKS School, we aim to equip our children with the right tools for a bright future.

The world is moving at supersonic speed and we must evolve with it. The growth is symbiotic, we learn from each other. Education is no longer limited to just academics, but an overall personality development. Extra-curricular activities such as sports, music, dance etc along with basic human values have become an integral part of our education system. I'm proud to say that every person here, at MAKS works tirelessly to groom every facet of each student.

It's my commitment that Green Land will continue to promote quality education and children will enjoy their learning and reap abundant harvest as long as they are under my protection. Teaching according to me is not 'run-of-the-mill-job'. It is a commitment that demands perfect character and elements of honesty and sacrifice to serve as role model for the students. I am proud to say that this novel system of education is the hallmark of only and only MAKS SCHOOL. The youth is our biggest resource and we endeavor to make our students physically, intellectually and emotionally strong so that they can face the challenges of the world and emerge as winners always. We inculcate in them spirit of patriotism so that they know their duties towards the Nation and act as agents of social reform.

I would like to extend my best wishes to all the students and I believe that each child, in his/her own way will bring laurels to the school and the country. I would also like to thank our parents who have put faith in us. By placing your child in our care, you have chosen to be a part of our family. I can assure you that we shall all learn and grow together.

SHRI GANESH V KHANDGE  
CHAIRMAN-MAKS

### PRINCIPAL MESSAGE

Dear students,

Greek Philosopher Heraclitus once said "It is impossible for the same man to step into the same river twice. No matter how short be the interval between the first and the second stepping, both the man and the river have changed." CHANGE, is the essence of life. It is immanent and a universally occurring phenomenon. So, it is with the behavioral patterns exhibited by the students nowadays. There was a time when the teacher was the most respected figure in the society. The words uttered by the teachers would be the ultimate truth for the students and they would even counter their parents by upholding the veracity of their teacher's statements. A slight, accidental touch by the teachers while walking in the class would make the child feel so special throughout the day.

But unfortunately, a morally upright student is now a think of past. Cross competition and selfish materialism has given birth to very self-centered students for whom values like respect, love, kindness and so on obviously take a backseat. Nowadays the children get everything very easily. They are rarely denied of their wants as a result of which they lose the value and worth of anything. This is reflected in their behavior too. They are not prepared to take 'no' for an answer. It is true that as they mature, they realize that the larger society cannot be tailor made according to their designs. But then it becomes too late and the students become anomic.

My dear students, you should fix your goal when you step in to your teenage. Students you follow your friend's step blindly, So, make good friends as they will help us to deal with our problems, make us laugh, and give us good advice.

Social Media are the major reason of distraction in today world. It is acceptable to own a technology, what is not acceptable is to be owned by technology. So, don't do the overuse of mobiles and spoil your life.

Education plays an important role in our life. It should be such that it prepares a smooth sailing of a child from student life to being a worthy member of the country. Even today, when compared to the rest of the world, our schools are safe for the students. Therefore, each one of us- the parents, teachers and the students- should join hands to build a better society, with a bright future.

The school magazine would be a nice tool which will surely help you to get the glimpses of the year long activities and achievement of the students of our school. I also glorify the relentless efforts of our teachers for giving their best in bringing out the best in each child. But I would exhort the students to be always modest, humble and disciplined, while being ready to expand the horizons of their knowledge and skills by dreaming big and working hard.

MS. PRANALI GURAV  
Principal- MAKS

## EDITOR'S MESSAGE

Welcome to the 6th edition of the annual school magazine of Mama Saheb Khandge English Medium School. We are really proud and exuberant to acclaim that we are ready with all new hopes and confidence to bring out the 6th issue, which unfolds the unraveled world of the most unforgettable and precious moments of our school. The magazine is to be viewed as a launch pad for the children's creative urges to blossom naturally. As the saying goes, 'Our mind is like parachute that works best when opened'. This humble initiative is to set the budding minds free allowing them to roam free in the realm of imagination and experience to create a world of beauty in words and pictures. The enthusiastic write-ups of our young writers are sufficient to hold the interest and admiration of the readers. I hope this magazine brings joy and pleasure in you in this time of uncertainty.

The magazine also reveals the School spirit which is built up within the school through the collective actions, thoughts and aspirations. All these, I believe would bring higher growth and enterprise in children. It gives me immense pleasure to ensure that this magazine has successfully accomplished its objective.

Yoga teacher

## The Environment: "Our precious Home"

The environment is our most precious resource, but it is frequently taken for granted. It includes everything in our immediate surroundings, such as the air we breathe and the water we drink, and it is essential to life on Earth. However, in recent times, human activities have posed serious threats to the environment, resulting in a number of ecological imbalances and environmental degradation. It is imperative that we acknowledge the significance of preserving and protecting our environment for the benefit of both the present and the future generations. One of the most urgent issues we face today is climate change, as increased greenhouse gas emissions from burning fossil fuels, deforestation, and industrial activities have led to a rise in greenhouse gas emissions, which in turn has caused global warming.

Patil Pratik Ganpat, VIIA

## READING BEYOND THE TEXTBOOKS

"I do believe something very magical can happen when you read beyond the textbook." Reading, it's a very important part of our life. Most of the successive people tells us that they are succeed in their life because of their reading habits. As reading books give us more knowledge we can express our thoughts if we have the proper vocabulary, and it is possible when we read different types of books. I have collection of books of at my home to read, it develops your mind and give you excessive knowledge. It can provide you with the more debt understanding sufficient formation and more on a specific topic. It is a source of stimulation for learners to do self-study... I believe that reading behind the textbook can improve a knowledge, observation, vocabulary, writing skills and thinking. I love to read various types of book instead of academic books. we can learn new words and the meanings because of reading. Reading nonacademic books can play a crucial role in helping us to release our stress. Today we can read books in hardback, paperback and also

in a third format, which is Electronic format known as e-book. That's why a book is a gift you can open it again and again. And it will never stop teaching you. And books are our true friends there is no other friend as loyal as a book.

Shreya Kude, VIIIA

## CYBER SECURITY

Protection of networks, data, programs and other sensitive information from unauthorized access change and destruction is known as cyber security. Cyber security is a major concern in this era where the use of -computers has become ordinary for everyone, with the development and the internet's availability to most of the public, the pathway of cyber crimes has also increased.

Malware, Spyware, Ransomware, Fraud, Phishing are different types of viruses used in a cyber-attack. Hackers gain access to someone's Computer systems easily if the user of that computer clicks on infected web Pages, links, malicious websites or unintentionally downloads a dangerous program. Cyber Security Plays an important role in preventing. Some difficult and heinous crimes like blackmailing, Fraud Transactions through another account, leakage of personal information.

It is responsibility of every citizen to spread awareness among everyone and keep their system- and network security updated to prevent cyber. attacks from happening worldwide.

Mayank Sahoo, VI A

## CHANDRAYAAN - 3

### India's Ambitious Mission to Conquer the Moon

As ISRO's lunar mission Chandrayaan-3 touched down on the Moon's surface on 23 August 2023, India became the first country to land a spacecraft on the lunar South Pole !! India also became the fourth country to achieve the feat of touching the lunar surface !!!

India launched its second attempt to reach the moon, after the first one, with Chandrayaan-2 in 2019, ended in disappointment. But with successful Chandrayaan-3 mission gave a satisfaction to ISRO scientist and a pride to Indian Nationals. This success is sweet news for all Indians.

NASA, Russian space agencies, Chinese space agencies has extended their greeting and congratulation messages. I have seen landing of Chadrayaan-3 on surface of moon. We also overjoyed and clapped as soon as Chandrayaan-3 touched to surface.

It is to be noted that Chandrayaan-3 shall undertake research about geology of moon surface, minerals on moon soil, water availability, temperature, possibility of life on moon, etc. This has led a new horizon to Indian

scientist to explore minerals which are not available easily on Earth. So this Chandrayaan-3 mission shall inspire to coming generations, this also has intrigued curiosity in my mind.

May the Chandrayaan-3 mission pave the way for future space exploration missions...

Nakshatra Manohar Sonawane, X STD

## HEALTH

Health is more than just the absence of illness; it's a state of physical, mental, and social well-being. In this fast-paced world, maintaining good health is not just a luxury but a necessity. A balanced and holistic approach to health can significantly improve our quality of life. Let's explore some key aspects of health and how we can achieve and maintain it.

A balanced diet is the foundation of good health. Our bodies require a variety of nutrients to function optimally. A wide range of fruits, vegetables, whole grains, lean proteins, and healthy fats are important in a diet. Hydration is crucial, too; drinking plenty of water helps our body perform at its best.

Regular physical activity is essential for maintaining physical health. It not only keeps your weight in check but also strengthens your muscles and bones. Exercise is also known to boost mood and reduce the risk of chronic diseases.

Mental health is equally important. It affects how we think, feel, and act. Stress, anxiety, and depression can take a toll on your well-being. Adequate sleep is crucial for both physical and mental health. It's during sleep that our bodies repair and rejuvenate.

Regular check-ups with healthcare professionals can help identify health issues before they become serious. Vaccinations, screenings, and routine exams are vital in preventing illnesses and ensuring early intervention when necessary.

Proper hygiene practices, such as regular handwashing, dental care, and cleanliness, can prevent the spread of germs and help maintain good health.

Avoiding harmful habits like smoking and excessive alcohol consumption is essential. These habits can lead to a range of health problems, including lung diseases, heart issues, and addiction.

Remember, health is a lifelong journey, and it's never too early or too late to start making positive changes. Prioritize your well-being, and you'll reap the benefits of a healthier, happier life. Embrace a holistic approach to health, nurturing both your body and mind, and watch as you flourish into your best self.

By adopting these principles and practicing them regularly, we can strive to lead healthier, more fulfilling lives. So, let's make health a priority in our lives, because when we feel good, we can accomplish great things and enjoy life to the fullest.

Arush Dhobare, VIII B

## THE KING OF CRICKET

Virat Kohli was born on 5 November 1988 in Delhi into a Punjabi Hindu family. His father Prem Kohli, served as a housewife. He has an elder brother, Vikas and an elder sister Bhawna. He had commenced his early education in Vishal Bhartiya Public School. At a mere age of three, he would pick up a cricket bat, display natural skill and request his father to bowl him.

In 1998, at (WCDA) West Delhi Cricket Academy was created. On 30th May of that year, his father espoused his son's request and sent him to meet his coach and another young boy, Rajkumar Sharma. Sharma was impressed by Kohli's accuracy and power of fielding. Despite his abilities, he was unable to secure his position in under 14 team of Delhi due to some extraneous factors.

In 2008, Kohli was selected for inclusion in the ODI squad for the tour of Sri Lanka and the Champions Trophy in Pakistan. In his debut in international cricket he was selected as an opener and dismissed by Nuwan Kulasekara's inswing delivery for 12 runs. In the fourth match he scored fifty-four runs. His first century came in front of Sri Lanka. He became the fastest 10,000 runs scoring batsman in the world, taking 267 innings to break the record in the 2023 Asia cup.

Dhruva Ravindra Salunke, VII B

## TRAVEL EXPERIENCE

Manali is a town, in Kullu district of Himachal Pradesh. We visited Manali in the month of June. We decided to travel by train. The train was Rajadhani August Kranti Express. It was my first experience to travel by train to a long distance. We started our journey on 04/06/2023. We boarded on the train in evening 5 pm and reached Delhi in the morning 9 am. After reaching Delhi we stayed at a hotel and after getting fresh we had our lunch. The next morning, we sat in Vande Bharat train and reached Chandigarh. There we took a cab for Manali trip. At 10.30 pm we reached Manali.

The first place we visited was Rohtang Pass, high mountain pass (elevation 3,980 m (13,058 ft)) on the eastern end of the Pir Panjal range of the Himalayas around 51 km (32 m) from Manali in the Indian state of Himachal Pradesh. It connects the Kullu Valley with the Lahaul and Spiti Vallies of Himachal Pradesh, India. In Rohtang Pass, fresh snow fall is expected in the months of December and January. We enjoyed a lot in the snow. We were two families to go for trip. We made snowmen. We clicked so many photographs. It was quite a good experience. Next day we visited Manikaran. Manikaran is located in the Parvati Valley on river Parvati, northeast of Bhuntar in the Kullu District of Himachal Pradesh. It is located at an altitude of 1760 m and is about 4 km from Kasol, about 45 km from Kullu and about 35 km from Bhuntar. In kasol we have a stay for one- night. Then on next day we said Bye to Manali. It was a very nice experience to visit Manali. I also suggest you to visit Manali once in your life.

Tanaya Dada Chormale, VI B

## STRESS MANAGEMENT DURING EXAM

Here are the tips that students should try to manage with exam stress:

1. Stay calm and believe in yourself.
2. Keep distraction items or gadgets away while studying.
3. Take short breaks to free up your mind. Go for sleeping early which will improve brain concentration.
4. Stay organized and make to-do list while you do time management.
5. Stop day dreaming while studying this is a sign of getting distracted.
6. During breaks watch TV or listen to your favorite music but don't get addict to it which will bother you while studying.
7. Eat nutritious and healthy food for your health.
8. Ask parents to help you in your studies if they have time for it.
9. Do meditation every day or else once a week.

Yamraj Bhaji Maharaj, VIII A

**TOP TRENDING FUTURE JOB IN INDIA**

During the past two years, there has been an immense surge in job opportunities related to digital skills-based profiles. These profiles vary from technical to financial job roles that have more scope of diversifying in the coming years. In this article, we will take a look at the top 10 in-demand jobs of 2023. According to research, the top 10 in trending jobs profiles of 2023 will include:

**Data Scientist:** Data scientists are the professionals who Use scientific methods, algorithms and System unstructured and structured data Sets. These professionals are responsible for analyzing, processing and modeling the Data for interpreting the result and creating Actionable plans. They create algorithms and data models to forecast outcomes.

**Data Analyst:** Among the top 10 trending jobs of 2023, data analysts are one of the most popular profiles. These professionalize, transform and perform data modelling to make strategic business decisions

**Blockchain Engineer:** Blockchain engineers perform operations. Design, development and provide support for the distributed blockchain networks. This profile is also listed as one of the top 10 trending jobs of 2023.

**UX Designer:** UX designers are involved in the process of integrating products through design, usability and function to enhance user experience.

**Cyber Security Engineer:** Cyber security engineers are the professionals that ensure secure network infrastructure for the company to prevent external breaches within the system. Due to an increasing number of cyber threats, these experts are in more demand than ever before.

**Cloud Developer:** Cloud developers are experts who work towards the development of cloud solutions. This is one of the most trending jobs in India 2023.

**Development Engineer:** This is one of the top 10 most trending jobs in India. Development engineers are the professionals that work with production IT staff and system operators to ensure code releases and deployments.

**HAPPY PARENTING**

The advanced mind-set and ideas portrayed by the new generation child makes parenting a task in many ways. Basically, good parenting is common sense combined with a lot of patience and the ability to be able to communicate effectively with your child, especially when we see a whirlwind of change in today's generation.

**Tips of good parenting:**

- Take time to concept, talk and listen to his/her point of view.
- Inculcate value right from day one explaining its need and importance from time to time.
- Practice what you preach. If eating in front of TV is not allowed, set an example.
- Encourage your child to pursue what he/she is interested in and not what you would want them to do. This brings about a harmonious relation with your child.
- Do not put your child down in front of other people.
  - Children must be taught to take a 'no' from parents as well as friends, teachers etc.
  - Befriend them, so that you know nothing remains a secret.
  - Last but not the least, be at your best always you surely are the most wonderful parent what is required is to change with the times, yet be firm when required, so that your child blooms into a beautiful flower.

**WHY SHOULD STUDENTS NEED TO READ NEWSPAPERS?**

A Newspaper is a piece of material which provides knowledge of all the latest news and events happening in the world. With newspaper reading, students enhance their vocabulary, reading skills and knowledge. There are several advantages of reading newspaper. It makes readers active learners. Reading newspaper is a healthy habit for students as they get full command on reading and vocabulary. It improves writing & reading skills as difficult words come while reading a passage that might confuse them. Making a habit of reading newspaper daily increases the chances of good vocabulary which will bring them success in any examination or competition in life.

Newspapers are a treasure love of information for students at the time of preparation of competitions, contests & quiz shows as they get unique ideas about what is going on at present & what is in trend nowadays. There are sections in it which has so many useful games like Sudoku, puzzles, riddles, tongue twisters, etc. are published. These types of mind games help in improving the vocabulary skills of children. Reading newspapers enhances the students as they learn different words from there. They can note them down with their meanings. As good vocabulary helps in writing good essays & assignments in examinations.

Students get information about various topics with the help of newspaper. They become a good orator which further helps in taking active part in debates, speeches & discussions. When a student possesses knowledge about different topics, he/ she can be able to speak without any hesitation in front of others. This ultimately increases his/ her level of confidence. Students should make a habit of reading newspaper daily.

Merlyn Fredrick Mendonca

## GOOD STUDY HABITS

For many of us, education is critically important. Our time spent in school shapes us, forms the basis of our knowledge, and ultimately provides us opportunities to succeed in life.

Not sure what kinds of habits you should incorporate into your life to make the most of your education? This list of good habits for students is a great place to start.

**Find a good place to study :** Finding a good location to study is one of the most important elements of studying well. Look for a quiet place with minimal distractions—someplace where you'll be able to focus, and won't be interrupted by loud sounds or people who constantly want your attention.

**Minimize distractions :** Here are some tips on minimizing these distractions: Turn off your Wi-Fi, Turning off your notifications, keeping your phone out of sight in your bag

**Study with a friend/group :** Sometimes studying with a friend or two, whether or not you're working on the same material, can help keep you accountable and focused.

**Take breaks :** Taking intentional breaks has been linked to better retention, increased attention, and boosts in energy. Here are a few ways you can give yourself a break:

- Take a short walk
- Listen to a mood-boosting song
- Relax with a friend
- Stretch
- Meditate
- Have a snack
- Clean your desk or room

**Set study goals for each session :** These can be time-based or content-based. For example, you might aim to study for two hours, or review three chapters of your textbook—or both.

**Reward yourself :** Rewarding yourself with treats - "bribing" yourself- has been linked to better self-control, and can be helpful in forming good habits. Telling yourself you'll get a small reward if you finish the section you wanted to get through, or perhaps a larger reward if you have a productive day of studying, can be good motivation to get to your goal.

**Ask for help :** You might find yourself stuck on a problem or unable to understand the explanation in a textbook. Approach your teacher, friend, or study group member for new ways to understand what you're stuck on.

**Take care of yourself :** At the end of the day, your brain is an organ in your body, take care of it by taking care of yourself. Get regular exercise, eat well, get good sleep, and take care of your mental wellbeing.

Success is very important to live a happy and prosperous life. A successful person is respected everywhere. Success gives your life value and you can proudly show off your worth. Success gives you the courage to achieve all things in your life. For being successful in life, one should not fear failure. Everyone wants to get success but only a few can achieve this because the route of success has many hurdles. Once you pass these hurdles, you are unstoppable. A successful person is a motivation for others. If you are successful, people will follow you and will want to be like you.

**Mrs. Aparna Tekawade**

Pre and Primary Co Ordinator

## ज्ञान हिच शक्ती

"Knowledge is power" हा सुविचार तर तुम्ही सर्वांनी ऐकलाच असेल. ज्याच्याकडे ज्ञान आहे तो या जगामध्ये अगदी योग्य रीतीने वावरू शकतो. ज्ञान हे फक्त पुस्तकी ज्ञान नसते तर ते आपल्याला अनुभवांवरून देखील प्राप्त होते. जीवन जगात असताना आपल्याला आपल्या ज्ञानाचा वापर करावा लागतो. जर आपल्याकडे ज्ञान असेल तर आपण कोणत्याही प्रसंगा मध्ये लढू शकतो. जर आपल्याकडे ज्ञान असेल तर आपल्या ला किमतीही मिळते. उदा. वर्गात प्रथमयेणारा विद्यार्थी याची होणारी प्रशंसा, हीत्याने परीक्षेमध्ये वापरलेल्या ज्ञाना मुळेच असते. ज्ञानामुळे आपले भविष्य उज्वल बनते. आजच्या जगातील स्पर्धेमध्ये ज्ञानी लोकांना प्रथमस्थान आहे. एका एका टक्क्यासाठी विद्यार्थ्यांना त्यांचे ध्येय साध्य करता येत नाही. ज्ञान हे आपले भविष्य यशस्वी बनवू शकते. ज्ञान नसल्याने ते अयशस्वी देखील बनू शकते. म्हणूनच आपल्याला मिळणाऱ्या ज्ञानाचा योग्य वापर केला पाहिजे. असम्हणतातना " ज्ञान दिल्याने ज्ञान वाढते ". जर एखाद्याला एखादी गोष्ट माहिती नसेल तर ती त्याला सांगावी.

ज्ञान हे योग्य ठिकाणी वापरणे देखील गरजेचे असते. आपल्याकडे असणाऱ्या ज्ञानाचा दुरुपयोग करू नको. कोणत्याही चुकीच्या गोष्टीसाठी आपले ज्ञान वापरू नये. उदा. चोरत्याचे ज्ञान चोरी करण्यासाठी वापरतो, पण ते योग्य नाही. ज्ञानाचा सदुपयोग आपल्याला करता आला पाहिजे

साधना निंबाळकर

## वाचनाचे महत्त्व

वाचनाने माणसाचे जीवन समृद्ध होते. नव्या जगाची ओळख, आव्हाने स्वीकारण्याची प्रेरणा असं बरंच काही पुस्तके आपल्याला देत असतात. पुस्तके वाचायची तर असतात. पण वेळ नाही, असं अनेकांना वाटत असतं.

पण सध्याच्या धावपळीच्या जीवनात अनेकांना वाचन करणं शक्य होतंच असं नाही. पण या घाईगडबडीतही थोड्या प्रयत्नांनी, नीट प्लॅनिंग करून तुम्ही पुस्तकांशी असलेलं नातं अधिक घट्ट करू शकता. ते कसं...हे आजच्या या लेखात जाणून घेऊया.

तर विद्यार्थ्यांनो पुस्तके कायम सोबत ठेवा. बसमध्ये, ट्रेनमध्ये आणि अगदी डॉक्टरांकडे जाताना एक पुस्तक सोबत ठेवाच. जेव्हा थोडा फावला वेळ मिळेल तेव्हा तो सत्कारणी लावता येईल.

वाचनाची सवय लावा. वाचन हे दैनंदिन जीवनाचा भाग होणे आवश्यक असते. दररोज सकाळी किंवा संध्याकाळी एक ठरावीक वेळ वाचनासाठी ठेवा.

तुम्हाला कथा-कादंबऱ्यांमध्ये आवड निर्माण करायची असेल तर अशी पुस्तके एका. हल्ली ऑडिओ बुकची संकल्पना आपल्याकडे रुजली आहे. एका महिन्यासाठी मोबाईलमधील गाणी बदलून ऑडिओबुक्स भरा.

उन्हाळ्यात संध्याकाळी पुस्तक घेऊन मस्तपैकी गच्चीवर ताजी हवा घेत वाचाच. तर हिवाळ्यात रात्री झोपायच्या अगोदर वाचावं जेणेकरून चांगली झोप लागेल....

जर तुम्ही अशा प्रकारे वाचन करत राहिलात तर वाचनाची गोडी तुम्हाला लागेल म्हणूनच तर वाचलं तर वाचाल.

**Ms. Sheetal Jadhav**

## IMPACT OF CHANDRAYAAN 3 ON THE INDIAN EDUCATION SYSTEM

I can proudly open my article stating that "The 21st century is India's century ". From time immemorial, humans have marveled at the beauty of the Moon, used it to count time and navigate the high seas. India, a major spacefaring nation has conducted a detailed exploration of the moon through its Chandrayaan program over the years by sending 2 robotic spacecrafts to orbit the moon.

Chandrayaan-1's conclusive discovery of water on moon in 2009 was praised as a path-breaking discovery. Chandrayaan-3 moon expedition was designed to attain a soft landing on the Lunar surface at its south pole and it was successfully achieved.

The impact of Chandrayaan 3 has played a vital role in encouraging education and research in this area. It has piqued the curiosity in the students. The fascination of the students about science, space and technology can be promoted through the ISRO STEM portal that offers various activities to develop their knowledge. The greatest take away from the Chandrayaan mission is great teamwork, perseverance, charismatic leadership, systematic organization and utilization of minimum resources.

For students this national endeavor has stolen their benign interest to the subjects of space science and astronomy.

India has not only contributed our expanse of knowledge to the world but has brought the moon closer to us. India has written its name in golden letters in the pages of history with a sparkling shimmer glinting stupendously remarking the struggles & efforts taken by myriads of working hands to have successfully landed a spacecraft the lunar surface. I can confidently conclude that this success has created an interest in every mind to learn deeply and thoroughly about the wonders of space. Being a subject that sparks ideas of adventure and mystery, it is also necessary to note that apart from being an astronaut or space scientist there are various other opportunities in this multi-faceted field of learning. So, let's aim higher and raise our standards quoting "Don't tell us the sky is the limit when there are footprints on the moon!"

## DID You Know?

We are more creative in the shower. The warm water increases the flow of dopamine and makes us more creative

The Statue of Liberty was once a lighthouse. About a month after the statue's 1886 dedication, it became a working lighthouse for 16 years, with its torch visible from 24 miles away.

The moon has moonquakes. They occur due to tidal stresses connected to the distance between the Earth and the moon

Venus is the only planet that spins clockwise. Every 225 Earth days, Venus travels around the sun, but Venus rotates clockwise once every 243 days.

Avocados are not vegetables. Avocados are fruits they are single-seeded berries.

A blue whale's heartbeat can be heard over 2 miles away. And their hearts weigh almost 400 pounds!

Human teeth are the only part of the body that can't heal themselves. Teeth are not made of live tissue and are coated in enamel, which can't spontaneously regenerate.

A shrimp's heart is in its head. If that wasn't interesting enough, due to the nature of their open circulatory system, shrimp have no arteries so their organs just float around in blood!

The Eiffel Tower gets taller in the summer. When the iron heats up, the tower can be up to 15 centimeters (6 inches) taller due to thermal expansion

Australia is wider than the moon

## FUNNY JOKES

- Mother** - Ravi why are you reading on blood?  
**Ravi** - Mother, doctor said that you are required to do blood test that's why I am reading on Blood.
- Teacher** - Which one is closer, sun or Africa?  
**Akash** - sun  
**Teacher** - Why?  
**Akash** - We can see sun, but can't see Africa.
- Mother** - Why did you get such a low marks in test?  
**Nidhi** - Because of absence. -  
**Mother** - You mean you were absent on the day of the test?  
**Nidhi** - No, but the kid who sits next to me was absent.
- Teacher** - Why are you late Nisha?  
**Nisha** - Because of a sign down the road.  
**Teacher** - What does a sign have to do with you being late?  
**Nisha** - The sign said: school is ahead, go slow.

## NEVER QUIT

When things are going wrong and your hope is torn,  
 Just go uphill don't think what is wrong.  
 Success is too long in your point of view,  
 but just one step to reach you.  
 Take a little rest for a time,  
 After the Success you rest whole Life.  
 Success is Magical Mixture of Hard work and time,  
 Which gives you time to enjoy your life.  
 Just one thing to tell you my brother,  
 Never Quit until you make your life Smoother.

Narinya Pardh, VIIA

## Work Hard

Oh, Man! Work like a dog and live like a king  
 Hard work can help you accomplish anything  
 The systematic work only bears the fruit  
 Try to select only an appropriate route.

You're a gifted human being with intelligence  
 Show your prodigy and prove your confidence  
 The world is so wonderful with opportunities  
 In which you live around many communities.

Do not be lazy and be as busy as a beaver  
 Your hard work and sweat pay you return  
 Your identity is your dignity and designation.  
 It gives you certainly fame and recognition.

Students constantly work hard for success  
 Parents really strive hard for their progress  
 Players play hard for the glory and conviction  
 Warriors struggle for the nation's protection.

## SCIENCE

Everything works, because of Science.  
 Even your old kitchen appliance. What about mom's car!  
 Without science, it wouldn't go far.  
 With science we could make, a computer or phone,  
 If you can't a twin, just ask for a clone.  
 Science will explain nature. and trees,  
 It's also used, to find cures for disease.  
 Science is cool,  
 the evidence is clear,  
 It is so much fun, enjoy it my dear!

Aaratrika Mohnish Panchal, VII A

## Dream

Hold fast to dreams,  
 For if dream die  
 Life is a broken-winged bird  
 That cannot fly.

Hold fast to dream  
 for when dream  
 Life is a barren  
 Field frozen with Snow....

## NATURE

Oh, wonderful Nature!  
 I wonder how you are so beautiful,  
 With The grass green trees,  
 and buzzing bees is so green,  
 and everything is so clean!

Vedika T. Bawane, VI A

## What is a Book ?

A book is pages, pictures and words  
 A book is animals, people and birds  
 A book is stories of queens and kings.  
 Poem and a songs So many things!  
 Curled in a corner where I can hide  
 With book I can journey far and wide  
 Though it's only paper from end to end  
 A book is a very special friend.

Ksheetija M. Sonawane - IV A

## CCA ACTIVITIES

Co-curricular activities facilitate the development of various domains of mind and personality such as the intellect, emotion, social engagement, morality and aesthetics. Creativity, enthusiasm, energy and positive thinking are some of the facets of personality development that result as outcomes of these activities. Various projects and activities, planned by the teachers, are executed with active participation by the students.

## SPORTS

"To be a great champion, you must believe you are the best. If you are not, keep on trying."

Sports competitions inculcate the spirit of positive challenges & sportsmanship among the students and prepare them for the life ahead. Sports, Games and Physical Fitness occupy a place of importance in our curriculum. Our students actively participated in different sports competitions and won medals, certificates and trophies.

## SCHOOL ASSEMBLIES

Assemblies are an essential part of schools, for they not only promote a sense of collective belonging to the school but they also educate the students in various ways. Best Assembly Marks were awarded to the winning houses, along with the appreciation.

To add a new flavour to the daily assemblies, themes are given to corresponding sections of the school, along with one day being dedicated to any special day of the week.

## Little Genius

"When we are active, we become stronger and more energetic. This, in turn, makes us more positive and self-confident. It's a powerful cycle."

The Academic Session 2023 – 24 was fun and frolic for the blooming buds of pre – primary and primary. They enjoyed different activities like Dancing, Singing, Story Telling, Fancy Dress, etc. All national days blended with high notes of orchestra which instilled a sense of patriotism.

The school strives to build humanity where faith is integrated with daily life. We have committed proactive teachers and dedicated support staff working to deal with these tiny toddlers.
